

Hello Nifty Trader,

Please find below the overview of the Nifty trading Strategies which you will learn through video tutorials including Power point presentations, Excel data, Nifty Chart patterns, etc.

23 Nifty wealth creating trading strategies will be showcased which are back tested for consistency from 2007 till 2017. We will use Nifty futures and sometimes nifty options as trading instrument for making position in Nifty trading strategy. We will discuss Buy as well as Sell strategies which can help us in creating wealth.

Time duration to learn strategies: 2 months

There will be 11 Sell strategies and 12 Buy strategies which will be applicable in nifty trading in different market conditions. No paid software required to analyze Nifty chart patterns. We will trade on software's like icharts and chartnexus which are freely available on internet platform.

Timeframe we trade :Daily chart pattern and weekly chart pattern
